Education

2019 - 2022	**Computer Engineer** (Average: 8.12/10)	**UAM**
2017 - 2018	**Technical High School**	San Juan Bautista High School
2006 - 2016	**Elementary School**	**Obispo Perello**

About Me

- Final year student and course delegete in the Computer Engineering degree at the UAM (Universidad Autónoma de Madrid).
- Creative, ambitious, with initiative and determination but above all, eager to learn and develop me as a great computer scientist.

Skills

Programming Languages

- C and C++ as the main programming language in which I did the mayority of my practices of the degree as well as the competitive programming exercises.
- Java, language which I use to develop a small application for managing events in a theater.
- Python, used for AI development, Django, Flask, automatas and more.
- HTML5, CSS, javascript and jquery used for web development.

General knowledge

- Knowledge of microsoft suite (Word, Power Point, Excel and MS Project).
- Smooth Handling of adobe suite (Photoshop, Premier, After Efects, Lightroom).
- Management of development methodologies such as scrum, waterfall, etc.

Languages

- Native Spanish level.
- Pet Cambridge Exam (B1) English Level.

Achievements

- Classified and participant in the first edition of the ideas factory hackathon at the UAM, continuing the project entering the prototype project of UAM Emprende.
- Classified to Ada Byron in the local phase of UAM and participant in the regional phase of the tournament.
- Around 100 problems resolved on AER.
- Several solutions in AER within the top 10 solutions, a top 1 and some top 3.
- Grades with honors in subjects such as Algebra.
